

John 12:20-28

²¹ “Sir,” they said, “we would like to see Jesus.”

BIG IDEA >> _____ **to** _____.

²³ Jesus replied, “The hour has come for the Son of Man to be glorified.

The TRUTH that...

_____ **leads to** _____.

²⁴ Very truly I tell you, unless a kernel of wheat falls to the ground and dies, it remains only a single seed. But if it dies, it produces many seeds.

_____ **leads to** _____.

²⁵ Anyone who loves their life will lose it, while anyone who hates their life in this world will keep it for eternal life.

_____ **leads to** _____.

²⁷ “Now my soul is troubled, and what shall I say? ‘Father, save me from this hour’? No, it was for this very reason I came to this hour. ²⁸ Father, glorify your name!”

EMPLOYMENT OPPORTUNITIES @ CROSSCITY

PRODUCTION ENGINEER (VIDEO)

The Production Engineer (Video) will utilize their experience and skill to directly operate or lead volunteers in operating any aspect of video production for weekend services and special events held primarily in the Worship Center as well as general event support across campus. They will bring key input to the look and feel of weekend services, special events, occasional set builds and are responsible for volunteer training and scheduling, preparing media assets and equipment for regular services and special events. The focus of this position is maintaining and/or improving the workflow and use of video systems in the worship center, and will provide production planning and support for all scheduled events across campus, as well as assist with equipment maintenance and occasional set builds.

PRODUCTION SYSTEMS ENGINEER

The Production Systems Engineer will utilize their experience and skill to directly operate or lead volunteers in operating any aspect of production for weekend services and special events held primarily in the Worship Center as well as across campus. They will bring key input to the look and feel of weekend services, special events, occasional set builds and are responsible for system design, planning, specifying, maintenance, and deployment for regular and special events across the campus. The focus of this position is in technical systems, yet will participate in varying levels of live engineering as well.
